Louise ROCARD

French artist

Born in 1993, lives and works in Paris.

Louise Rocard, aka Migi, and Antoine Belot are collaborating on a series of 3D videos. Antoine contacted Louise after discovering her photo series, «The Girl Who Fell to Earth.» The image of this body merging with the landscape evokes a kind of new romanticism where the heroic man, moved by the beauty of the world, has been swallowed up by it... From this encounter arose the desire to collaborate and bring this world to life. The first video, «Meta Avatar,» was presented in October 2021 to the graduation jury.

The third installment, created specifically for «Espace,» continues the rhythm and concept conceived the first time. It presents a new phantasmagorical manifestation; a derivative of the angel figure, once again embodied in the Zentai suit. It floats endlessly and is now nothing more than a trace in a vast desert world of deafening silence.
